

# AD Enclosure - B Sector

Search and Secure Procedure

## B Sector

BSector.V1.0

0. Verify from the MCR whether the Overpass area is interlock. If not, you will need to search & Secure the Overpass before interlocking B-Sector.
1. "A" and "B" reset Interlock boxes #1 and #2 after Search and Securing the C0 Collision Hall, if needed. See the procedure for interlocking the C0 Collision Hall.
2. "A" holds while "B" check to make sure the cover plates are chained and locked with 2 padlocks.
3. "A" holds while "B" sweeps the tunnel to the C0 Wonder Building.
4. "A" holds while "B" checks the stairwell and resets Interlock box #4.
5. "A" holds while "B" checks the stairwell and resets Interlock box #5.
6. "A" holds while "B" checks the stairwell and resets Interlock box #6.
7. "A" holds while "B" checks the stairwell and resets Interlock box #7.
8. "A" holds while "B" checks the Low Beta shielding is in place and locked.
9. "A" and "B" check the ladder to the Mini-Loop.
10. "A" and "B" reset Interlock box #8, close the gate and reset Interlock box #9, then sweep the stairwell to Interlock box #10 at B0 Service Building.

- A. B-Sector B0 Mini-Loop is a separate interlocked area. You can enter from either the ladder by B0 or the gate in the B1 service building stairwell. There is only 1 Interlock box and it's by the gate in the B1 stairwell. The interlock box will display information if the Mini-Loop is made up or which gate is dropped, #1 is in the gate in the stairwell and #2 is the gate at the top of the ladder. To interlock the area, the Tevatron A-E Interlock reset key will let you into the area, sweep the area and exit by the B1 stairwell and reset the interlock box.

Note: Access into the Overpass area will drop the Mini-Loop only, not B-Sector
